

Math Lab Information

Teacher: David Bonanza

Location: library computer lab

Schedule:

Mondays/Wednesdays/Thursdays: 3pm to 3:45pm

Tuesdays/Fridays: 7am to 7:45am (Please come into the library computer lab even if the library looks dark. We leave the lights in the main library off so that students not visiting the math lab will stay out of the library.)

What's available: help from Mr. Bonanza and Mu Alpha Theta student tutors, homework help, test/quiz review, exam preparation, etc.

Appointments: Students are welcome to attend with or without an appointment. If a student/parent would like to make an appointment (one-time or weekly), please email david.bonanza@htes.org. For students with appointments, I will report to parents on attendance/progress.

Jr High Dismissal Policy: It is school policy that junior high students must be supervised while on campus after school. Here are the options available to junior high students/parents.

- Go to the front office and have Mrs. Arter call the math lab to dismiss the student.
- Physically go to the library computer lab to pickup the student.
- **8th grade only:** may be dismissed by showing me a text message from parent or guardian
- At 3:45pm, all students who haven't been picked up will go to supervised study. (There may be a charge associated with supervised study.) I must be strict about this in order to keep other after-school commitments, including picking-up my own children.
